**PETITION UNDER 37 CFR 1.84**  
**REQUESTING ACCEPTANCE OF COLOR PHOTOGRAPHS**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

This is in further response to the Office Action mailed on October 29, 2002, setting a  
three-month term for reply.

Applicants request that color photographs be permitted in this application, as they are the  
only practical medium by which to disclose the subject matter of the invention. The invention  
involves, *inter alia*, the uptake of light emitting agents by abnormally proliferating cells,  
particularly in conjunction with treatment with a differentiation agent. The data presented in  
Figures 4 and 5 demonstrate that cells pretreated with the synthetic androgen R1881 accumulate  
more light-emitting photosensitizer than those without pretreatment.
